

FADZISO NDORO

JUNIOR FRONT-END DEVELOPER

PROFILE

I am a Junior Web Developer and part-time student with a passion for web development and beautiful, functional design in all my work. I continue to develop my skills and grow professionally as a Front-end Developer & UI/UX Designer through various professional courses and working with individuals and companies that require my services.

I am looking to joining an organisation that will allow me to showcase my skills and offer me an opportunity to expand my knowledge, skill base and experience as I build a successful career in web development. I am a motivated and creative individual with a keen sense and attention to detail. Although the job entails a lot of working on projects as an individual, I am a great team player and work well with clients to establish their needs and develop products according to agreed briefs.

EXPERIENCE

FerraHub
